SUMMARY

Detail-oriented web developer with a strong foundation in full-stack development, transitioning from a career in accounting. Skilled in building responsive, scalable applications using front-end and back-end technologies, with a focus on delivering high-quality, efficient code. Seeking remote opportunities to contribute technical expertise and collaborate with forward-thinking teams across various industries.

SKILLS

Front-End Development
- HTML, CSS, JavaScript, TypeScript
- React.js, Angular.js, Next.js, jQuery
- Bootstrap, Tailwind, Angular Material, SASS/SCSS
- AJAX & JSON

Back-End Development
- Node.js, Express
- MongoDB, PostgreSQL
- APIs (JSON, RESTful)
- Postman (API testing tool)

Mobile Development
- React Native, Expo
- Android Studio

Testing & Quality Assurance
- Jest, Cucumber, Puppeteer

Cloud & DevOps
- AWS, Firebase
- Docker
- Heroku

Other Tools:
- Git, GitHub
- Scrum (Trello, Ora)

EDUCATION

Full-Stack Web Development

CareerFoundry
Nov 2023 - Oct 2024

Bachelor of Arts, Major in Management

Webster University
2016 - 2018

WEB DEVELOPMENT PROJECTS

AnimeEiga

Personal Project, CareerFoundry | 2024

- Developed an anime app with a comprehensive anime database using MongoDB to store anime and user data
- Built RESTful API endpoints using Node.js and Express to handle data retrieval, user authentication and library management
- Created a single-page, responsive web application with two client-side versions: one using React and the other, Angular
- Implemented features allowing users to create accounts, browse the anime and save anime to personal list

Meet App

Personal Project, CareerFoundry | 2024

- Developed a Progress Web Application in React with offline functionality, cross-platform compatibility, and installable on the home screen
- Integrated Google Calendar API to display upcoming events and sync data in real-time
- Followed a Test-Driven Development (TDD) approach, using Jest for unit and integration testing, Cucumber for acceptance testing, and Puppeteer for end-to-end testing
- Implemented OAuth authentication and authorization through serverless functions with AWS Lambda

PROFESSIONAL EXPERIENCE

Financial Accountant

Active Global Respite Care Pte Ltd | Aug 2018 - Apr 2024

- Managed monthly, quarterly and annual closings and oversaw key accounting processes, including payroll, general ledger, and account reconciliations for accounts payable and receivable
- Prepared and maintained balance sheets and profit/loss statements to ensure accurate financial reporting
- Ensured timely bank payments and compliance by coordinating with external auditors and government authorities as required
